

## ASSIGNMENT

**TIME: 2 Hour 30 Minutes**

### **TASK - 1 (40 MARKS)**

1. Need to develop a featured section with the same look and feel as depicted in the below image.

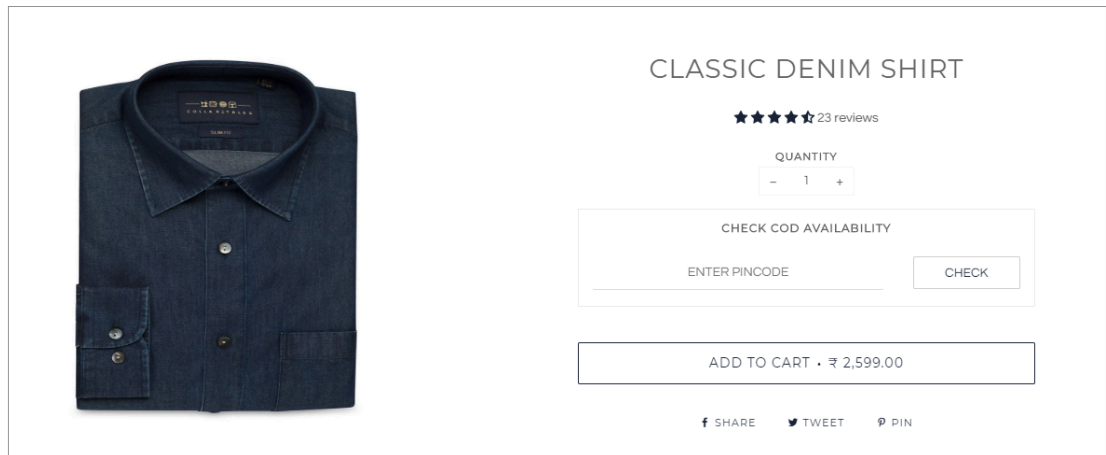

**PS: It should be responsive for all screen sizes.**

### **TASK -2 (60 Marks)**

1. Need to develop a product page section with the below depicted image and the following functionalities :
  - a. On Changing Quantity Selector (increment / decrement) the price should change accordingly.
  - b. Make pincode verification mandatory when clicked on add to cart.

- c. Disable add to cart button and throw an error “Sorry, You are not eligible for COD” when clicked on verify button for the following pincodes 560017,560018,560019,560020. For the rest of the pincodes show a success message showing “You are eligible for COD” and remove disabled attribute from add to cart button.

### NOTE

1. Use HTML,CSS, JS for the above functionality.
2. Make sure every design is responsive for different screen sizes.
3. Marking will depend on the user interface and the functionality.
